Summary

Backend-focused PHP/Laravel Engineer with 4 years building secure, business-critical applications: REST APIs, MySQL, Redis, transactional workflows, event-driven architecture, and multi-tenant systems. Focused on correctness, idempotency, testing, and domain modeling. Maintainer of published Laravel packages, with 19 merged upstream PRs across Laravel Horizon, laravel-debugbar, Grav CMS, and career-ops.

Professional Experience

Full-Stack PHP/Laravel Engineer **Oct 2025 – Present**
Sentients AI
- Drive the Nexo 2.0 marketplace rebuild: assessed the legacy app (payments never marked paid, cross-tenant vendor routes, staging on the production DB) and wrote the v2 spec and ADRs.
- Built the v2 frontend foundation (Vue 3, Inertia 3, TypeScript) with a Node 24 CI job (type-check, Vitest, `npm audit`); resolved Composer security advisories blocking CI.
- Integrate external REST APIs and synchronization workflows; optimize queries, indexing, and Redis caching; implement secure transactions and RBAC, reducing potential vulnerability surfaces by 45%.

PHP/Laravel Developer (Freelance) **2022 – Present**
Client Projects
- Deliver Laravel apps and REST APIs end to end (schemas, transactional workflows, auth, Pest tests); integrate payment gateways, webhooks, and external APIs with failure and sync handling.

Open Source

Upstream Contributions — GitHub | *Laravel Horizon, laravel-debugbar, Grav CMS, career-ops* **2026**
- **Laravel Horizon** (#1819, merged): fixed "Delayed Until" matching "Pushed" for jobs delayed with a `CarbonInterval`.
- **laravel-debugbar** (#2085, merged): validation errors no longer cut off by the dumper's depth limit.
- **Grav CMS** (#4278, merged): `GRAV_CONFIG__*=false` env overrides no longer read as enabled.
- **career-ops** (16 merged PRs): fixes across job-portal scanning, the lead pipeline, CV templates, and web onboarding.
- **Under review:** Larastan (#2563, per-connection schema isolation) and Collision (#379, `artisan test` option parsing).

Laravel Idempotency — GitHub | *Maintainer* **2026**
- Idempotency keys, request fingerprinting, response replay, and cache locking behind extensible contracts; 93% coverage.

Laravel Tracer — GitHub — Packagist | *Maintainer, v0.1.0* **2026 – Present**
- Application-level tracing: request, query, and queued-job spans with context propagation across queues and HTTP; memory and database storage; CI on PHP 8.3–8.5 and Laravel 12–13.

Selected Projects

Kilat Car Wash — Multi-Branch Booking & Operations | *Laravel 13, React 19, TypeScript, Inertia, Reverb* **2026**
- 46 screens across 4 roles (customer, washer, supervisor, owner) in English and Malay: QR booking with race and duplicate-booking protection, a washer bay tablet app, and live queue and TV screens over Laravel Reverb.
- Cost per wash and gross-profit reporting with CSV exports, payroll, stock deducted per wash, a plate-camera webhook, WhatsApp reminders, PDPA consent and data requests, and enforced staff 2FA; 232 PHPUnit tests and Larastan in CI across 20 merged PRs.

Madarik School Management System — Live Demo **2026**
- Multi-tenant school platform in production at a school of 500 students: student records, academic workflows, reporting, and RBAC; Redis-backed notifications and scheduled jobs; React/Inertia dashboards.

Modular E-Commerce System — Live Demo — GitHub **2026**
- Modular Laravel system separating orders, payments, inventory, and users with DDD, value objects, and domain events; multi-tenancy with automatic query scoping.

Technical Skills

Languages & Backend: PHP, SQL, JavaScript; Laravel, REST APIs, MySQL, Redis, Transactions, Caching, RBAC
Laravel: Eloquent, Sanctum, Fortify, Passport, Horizon, Telescope, Queues, Events, Middleware, Policies, API Resources, Notifications, Scheduler, Rate Limiting
Architecture: DDD, SOLID, Clean Architecture, Event-Driven Architecture, Multi-Tenancy
Frontend: TypeScript, Vue.js 3, React 19, Inertia.js, Livewire, Alpine.js, Tailwind CSS
Testing & Tools: PestPHP, PHPUnit, Vitest, PHPStan/Larastan, Rector, Pint; Git, Composer, GitHub Actions, Filament, Reverb, Echo

Education

University of the People **2020 – 2023**
BSc Computer Science, GPA 3.58 *Remote, USA*
Kreativstorm **2024**
Software Engineering Program *Remote, Germany*
